

## The Storehouse Move In: Phase I

The Storehouse team is excited to share that we have a date set for Phase I of our move into the new space on the North side of the St. Andrew campus.

Phase I move in will begin on **Saturday, October 19** and will impact our **food pantry sorting and preparation areas only**. Said another way, Phase I move in **ONLY** impacts the dry pantry, the hallways in front of Rooms 131-133, our items stored in Room 133 and our refrigerators and freezers.

All other activities currently taking place in Smith Worship Center **will remain in their current spaces** until Phase II later this year. Areas **NOT** impacted by the October 19 move include:

- Neighbor Greeting, Intake & Waiting Area
- Personal Shopping
- Joseph's Coat
- Volunteer Check-In

Here is the move-in timeline and associated activities:

- Beginning **on Saturday, October 19 after our regular Saturday pantry hours**, The Storehouse team will work alongside a small team of dedicated volunteers to relocate our **food pantry sorting and preparation areas** into the new space. Our goal is to have the move into the new space complete no later than 5:00 pm on Sunday, October 20.
- Beginning **Monday, October 21**, we will begin to prepare and distribute food in our new space. The volunteers who are part of the preparation and distribution teams will receive additional communication throughout this month as to how we will work in our new space.
- On **Thursday, October 24**, our neighbors will receive their standard compliment of food (e.g., cold box, produce, canned goods, etc.) by driving around to the north parking lot for pickup, much like the process we followed before construction on the north parking lot began. Neighbors will continue to exit Smith Worship Center with their personal shopping items as they do today. Our load-in volunteers will receive additional communication throughout this month as to how load-in will work beginning October 24th.

As per usual, please keep in mind this plan is subject to change if anything changes within construction. We will strive to communicate throughout the month through email and while you are serving to keep you up to date with the latest. Most of all, thank you for your flexibility and dedication during this exciting season for The Storehouse!

In Him,

Candace Winslow  
Executive Director
